

The Benefits

1. Protection for Products

- Cornerkraft™ stabilises pallet loads and increases stacking strength.
- Reduces the risk of damage to products.
- Protects products from strap damage.
- Improves confinement of product to pallet.

2. Easy to use

- Cornerkraft™ features a rounded corner, making it easy to apply uniform strap tension across your load.
- Can be used with most strapping materials and can be covered by shrink film or stretchwrap.
- Cornerkraft™ has no sharp edges, so there is less risk of injury to product handlers.

3. Environmentally Friendly

- Cornerkraft™ can be recycled with the rest of your paperboard packaging.
- Cornerkraft™ contains up to 60% recycled material and is manufactured from a renewable resource.

4. Customised to your business

- Cornerkraft™ lengths can be custom made to your requirements.

Provides strength, stability and protection for palletised packaged goods.

The Cornerkraft™ packaging system has been designed to contain and protect palletised product in transit and storage. Cornerkraft™ provides a tough, laminated paperboard corner which can be used with most strapping materials, and can be covered with shrink film.

Cornerkraft™ allows uniform strap tension to be applied to palletised loads. Each Cornerkraft™ length forms a strong, sturdy rounded corner to simply and effectively encompass goods.

Cornerkraft™ comes in two forms: Standard Cornerkraft and Strap Protector pieces.

Standard Cornerkraft has a thickness of 5mm, and can be custom-made to your requirements up to 4.2 metres in length.

Strap Protector pieces are designed to protect against metal strap damage on products like timber, and are available in standard 40mm and 60mm lengths.

Cornerkraft™ has a smooth laminated, plastic free finish.

Metal corners can cause damage, scratching and tearing cases or product. The sharp edges can be a source of injury for product handlers. Cornerkraft™ solves both problems, and is an environmentally friendly – 100% recyclable – alternative.

Contact us today to discuss how Cornerkraft™ can be customised for your business.
